

Planning to upgrade your furnace before winter moves in?

We can lower the cost with rebates.

You can lower winter heating bills, too, because a high-efficiency natural gas furnace warms your home with up to 98% efficiency.

Turn over to see rebates.

Reliable, high-efficiency natural gas heating for less

Get a rebate of **up to \$1,200 in Oregon**, or **up to \$850 in Washington**, from NW Natural Preferred Contractors and Energy Trust when you upgrade to a high-efficiency natural gas furnace.

See details and NW Natural Preferred Contractors nearest you at [nwnatural.com/Offers](https://www.nwnatural.com/Offers).

* Incentives are subject to funding availability and may change. Some qualifications apply. Visit [nwnatural.com/Offers](https://www.nwnatural.com/Offers) for details.

Delivering warm air to your home

Did you know a high-efficiency natural gas furnace heats your home with air that can be up to **24% warmer** than air produced by a comparably sized electric heat pump?* That's the warmth you can feel when the outside temperature drops.

* Visit [nwnatural.com/Appliances](https://www.nwnatural.com/Appliances) for more information.
